

## BoxClusterML-STAR, CD-adapco's STAR-CCM+ pre-installed model

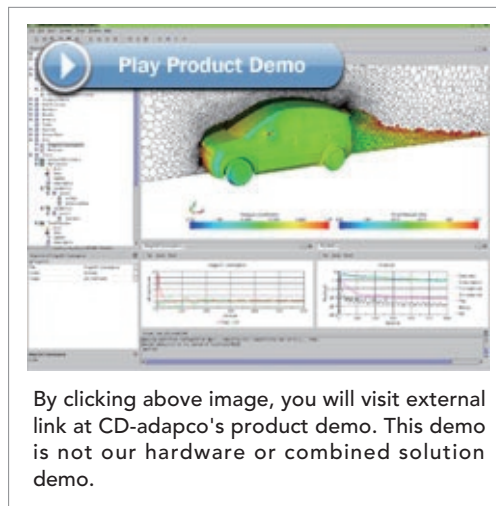

CD-adapco's STAR-CCM+ delivers the entire CFD process from CAD to post-processing in a single integrated software environment.

Now, Boxcluster provides a single integrated total solution in a box, which enables customer, upon delivery of the box, simply to plug in the main power, a keyboard, a mouse and a monitor cable, then the system is ready to go.

Boxcluster's STAR-CCM+ package, upon receiving an order, we will install and setup licensed software and perform burn-in process prior to shipping, which makes customer to start running their jobs on the Day 1 of the product delivery.

### System configuration:
